Education

University of Michigan-Dearborn

August 2023 – May 2027

BS in Software Engineering

- GPA: 4.0/4.0
- **Coursework:** CIS 150 & 200 - C++ Programming, Discrete Structure I & II, Data Structures and Algorithms for SE, Software Engineering Tools
- Fall-Winter, 2023, 2024 - Dean's List, Honor Roll
- Dean's Scholarship, CECS Sharpe Scholarship III, MI Achievement Scholarship

Skills

- Programming Languages: C, C++, Python, JavaScript, HTML, Css, MATLAB
- Flask, RESTful API design, pip, virtualenv, SQLAlchemy (ORM/Databases), Simulink, Jenkins, Docker, Katalon Studio, Eclipse, Xcode, VS Code, Enterprise Architect
- Git, GitHub, Microsoft Project Professional, Microsoft 365 (Word/Excel/PowerPoint), Lucidchart, Figma
- Time/Data Management, Detail-Oriented, Problem-Solving, Team Collaboration, Adaptability

Projects

AI JobBoard Web Application

- Built a full-stack AI-powered job board using Flask (Python) and SQLAlchemy for the backend, and HTML5/CSS3, JavaScript, and Bootstrap5 for the frontend. Designed RESTful endpoints to support keyword, ZIP-code, and skills filtering; implemented user auth with Flask-Login. Collaborated end-to-end with a teammate, swapping between front-end and back-end tasks to gain hands-on full-stack experience.

Monopoly Game Simulation

- Developed a digital Monopoly simulation using C++ and object-oriented programming, featuring dynamic gameplay, property trading, auctions, and AI strategies.

Computer Order Management Systems

- Developed a Computer Order Management System using C++ and object-oriented programming, featuring automated order processing, real-time inventory tracking, and a streamlined user interface.

Cybersecurity Threats & Data Privacy Research (UM-Dearborn)

- Conducted stakeholder interviews and surveys (Dean, faculty, IT staff, and students) to map current campus security posture. Identified key vulnerabilities in data handling and authentication workflows. Developed a set of efficient, actionable recommendations.

Experience

Customer Service & Retail

July 2020 – Present

- I have managed transactions and day-to-day operations in a high-volume retail environment, resolving customer issues promptly and consistently meeting performance targets. I have trained and mentored new team members on POS systems and service best practices, and regularly stepped into shift-lead roles.

Peer Mentor Collective (UM-Dearborn)

August 2 2024 – Present

- As a Peer Mentor, I'm paired one-on-one with several freshman mentees to provide dedicated support throughout their first year. I regularly check in to listen to their concerns, help them navigate academic and campus resources, and inspire them to set and achieve personal and educational goals.

Additional Information

- **Certifications:** Python Programming/Data Structures, C Programming, MATLAB, Simulink
- Member of Honor Society®, The National Society of Leadership and Success, Society of Women Engineers, Girls Who Code, Chemistry and Artificial Intelligence Club, UNICEF Volunteer
